

Dear Expectant Parent(s),

We are honored that you are reading this letter and know that you have a very difficult decision in front of you. Considering adoption for your child is truly courageous. May God grant you wisdom and direction as you consider what the future looks like for your little one.

We would love to share a little bit about us. Kelly is essentially a Colorado native, while Laura grew up in Northern Virginia, right outside of Washington D.C. We are fortunate to have both sides of our extended family in the Denver metro area. Kelly & Laura met through a mutual friend 13 years ago and have been married for 9 years. From the beginning of our marriage, we realized our desire to adopt was a lot stronger than our desire to have biological children. In 2020, we became foster parents to our now son, Micah. We were able to adopt him just before he turned 2. He's now almost 4, super sweet & sensitive and absolutely loves younger children. Micah has been such a blessing to our family! We love him dearly and desire for him to experience the joy of having a sibling.

Kelly is a Database Manager for an international company. He works from home & has only ever gone on 1 business trip! This has afforded us lots of family time & was especially beneficial as foster parents when attaching to Micah. Laura is a former teacher/youth programmer & grateful to now be a stay-at-home mom. Micah just finished his first year of preschool. He is a very curious little boy and loves music, riding his bike, Winnie the Pooh and ninja class. We love to fill our time with family trips to the zoo, animal sanctuaries, museums and adventuring outside.

We thank you from the bottom of our hearts for taking the time to read this letter and considering us as a potential adoptive family. We have an open adoption with Micah's birth family and would love to do the same with you, if you so desire. Your comfort level is our priority. We truly wish the best for you and your little one.

Sincerely,

Kelly, Laura & Micah
